SUMMARY

Results-driven Full Stack Developer skilled in JavaScript, React.js, Node.js, MongoDB, and RESTful APIs, with experience in building scalable, AI-integrated web applications. Strong in problem-solving, team collaboration, adaptability, and delivering clean, maintainable code.

EDUCATION

Bachelors of Technology, Shri Ramswaroop Memorial University

Expected 2026

Relevant Coursework: Data Structures, Computer Networks, Operating Systems, DBMS, Software Engineering

12th Intermediate, Modern Academy Inter College

PCM with Computer Science

TECHNICAL SKILLS

Languages	Java, Javascript, HTML, CSS
Frontend	React.js, Next.js, Tailwind CSS, ShadCN UI
Backend	Node.js, Express.js, RESTful APIs, JWT Auth, Cron Job
Databases	MongoDB, PostgreSQL (Neon)
Tools	Git, GitHub, Postman, VS Code, Vercel, Render
CS Fundamentals	Data Structures, Algorithms, OOP, SDLC
Others	API Integration, Responsive Design, Authentication, Automation

PROJECTS

QuickAI - Subscription-Based SaaS Utility Platform[\(Link\)](#)

June-July 2025

- Built a full-stack AI SaaS platform using the PERN stack with secure authentication via Clerk, serverless PostgreSQL (Neon), and Stripe integration for subscription-based billing and gated AI features.
- Implemented AI tools for blog title generation, image editing (background/object removal), and resume analysis using external APIs; ensured responsive UI with Tailwind CSS and collaborated on performance optimization.

Welth - AI Finance Platform

March-April 2025

- Built a full-stack AI Finance Platform using React 19, Next.js 15, Tailwind CSS, Shadcn UI, Supabase, Prisma, and Clerk Authentication; developed secure backend workflows and RESTful APIs with Arcjet for rate limiting, bot protection, and error handling, demonstrating strong problem-solving and attention to detail.
- Integrated Gemini AI and OCR for intelligent financial insights, automated email reports with Inngeist and cron jobs, and designed responsive dashboards to enhance UX, collaborating effectively within a 3-member team.

Prescripto – Healthcare Appointment Platform

October-November 2024

- Built a secure, role-based backend using Node.js, Express.js, and MongoDB with JWT authentication and RESTful APIs for appointment scheduling and payment integration.
- Designed responsive dashboards with React.js and Tailwind CSS, implemented protected routes, and added real-time notifications to enhance user experience.

CERTIFICATIONS & ACHIEVEMENTS

- Completed AI Fundamentals certification from IBM SkillsBuild (Apr 2025), gaining hands-on experience in machine learning and NLP using IBM Watson Studio.
- Solved 200+ DSA problems on [Leetcode](#), [GeeksForGeeks](#), and [CodeChef](#).
